Equipped for anything

At the end of the day every vehicle contributes to your profits. You can't afford to lose time or money because of a breakdown, theft, accident or high demand. With more than 1900 trucks, trailers and cars available for short or long-term rental, ORIX can provide the vehicles you need at competitive rates. That includes covering your busy periods or short-term contracts.

Keeping it simple

We make it our business to help yours. Our processes and procedures are designed around your needs. For example, we recognise the long hours put in by transport businesses. Which is why we're the first commercial vehicles provider to introduce 11-hour days in some areas, from 6.30 am to 5.30 pm.

We also have one, simple rate structure for all commercial vehicle rentals, nationwide.

Financial muscle

We can help you make sure your vehicle fleet is profitable, as well as productive. ORIX has substantial buying power and a large supplier network, giving you access to quality products at attractive prices.

Our industry strength allows us to negotiate highly competitive prices on vehicles, accessories, service, tyres, maintenance and repairs. We'll even negotiate with Original Equipment Manufacturers (OEMs) on your behalf, using our knowledge, experience and size to save you from having to research and compare suppliers to get vehicles or equipment produced to your specifications.

Support 24/7

In the transport business, you quickly learn to expect the unexpected. So ORIX provides 24-hour 7-day Emergency Breakdown Assistance as part of all our rental agreements. Nationwide support is facilitated through a single toll free number; so your driver and delivery can get back on the road faster.

Emergency Breakdown Assistance can also be provided to nominated drivers as part of your ORIX leasing agreements, to ensure your vital deliveries are always protected.
